About

In 2020 the highly respected *PublicTechnology* launches its inaugural Annual Conference

[PublicTechnology](#) [1] is the UK's leading source of breaking news and analysis for digital, data, and IT professionals throughout the public sector. This media brand covers everything from the intricacies of central government digital strategy, through to the realities of how technology is changing the provision of front-line public services in local government, health and social care, education, and law enforcement. You can also receive all the biggest stories and exclusive interviews direct to your inbox each day by [signing up for PublicTechnology daily newsletter](#) [2].

The PublicTechnology Annual Conference

From streamlining services and boosting efficiency to transforming the way we interact with users, the scope for what can be achieved with digital is continually getting broader. With the widening digital skills gap impacting the UK workforce and the need for organisations to show real leadership in their digital ambitions, as the opportunities for innovation grow so do the challenges. Bringing together the latest innovations in digital transformation from across the public sector, the PublicTechnology Annual Conference is the place to learn, share and discuss the key trends and themes for the upcoming year.

The Conference streams

- **Digital Leadership & Skills** - from making services accessible to working smarter and greener, from apprenticeship schemes to upskilling workforces how can digital leaders guarantee digital success?
- **AI and Automation** - the potential uses for AI in the public sector are significant but must be balanced with ethical, fairness and safety considerations. This stream will help you navigate the best use of AI for you.
- **Cloud and Procurement** - the new CCS and GDS collaboration could put an end to the cloud first procurement. We will explore the future beyond the G-Cloud and best practice for procuring

tech services.

Why attend?

- **Thought leadership and knowledge-sharing** - bringing together the latest innovations in digital transformation from across the public sector, the PublicTechnology Annual Conference is the place to learn, share and discuss the key trends and themes for the upcoming year.
