## About PT Live

**PublicTechnology Live is where public sector digital, data and IT professionals meet to advance tech transformation, from strategy to implementation.**

Following a period of rapid innovation, collaboration and digitisation, March 2021 will be a critical opportunity for the sector to pause, rethink and recalibrate. Across 2 conference days we'll be exploring how the pandemic will have irrevocably shaped the approach to digital transformation for the longer term.

Speakers representing a wide range of public sector organisations will be share their lessons learned from an unprecedented year, review the new work practices that have been adopted through necessity – and what should be kept as part of a new normal, as well as revisit key trends in the sector and evaluate the priorities for the year ahead.

### The Conference streams

With over 30 conference sessions, delegates can pick and choose their sessions across the following 3 themes:

- **Track A: Digital Transformation**

Explore leadership, culture and skills to enable the reconfiguration of organisational process and service delivery to digital

- **Track B: IT Infrastructure**

Examine technology, systems and connectivity to build the foundations of fully digital organisation

- **Track C: Tech Innovation**

Discover inspiration and creativity to accelerate the application of new and emerging technologies
