WiredGov

WiredGov is the UK's No. 1 government and public sector news alerting service, delivering more official news and announcements from more departments and agencies to more public sector subscribers than any other government news alerting service currently available.

WiredGov provides registered users with up-to-the minute newsfeeds and announcements from over 160 government and public sector departments and agencies (many which are not available from Gov.UK). The service is free to all government, public sector & third sector registrants.
